Welcome In **Glowit**
Bath Sanitary Ware
Manufacturer & Supplier

ABOUTUS

Set up in 2018 Glowit Bathware has, in a very short span of time, emerged as one of the eminent manufacturers of Ceramic Sanitaryware'in India. Wellvit offers a wide and extensive range of Sanitaryware products and accessories i.e. Floor Mounted and Wall Hung water closets, Wash Basins, Urinals, Squatting Pans, Seat Covers and Cisterns etc. The Organisation is founded and managed by well qualified professionals who possess unmatched experience and expertise to manufacture international quality sanitaryware.

QUALITY

All Glowit products are manufactured in our state of the art plant with stringent quality norms. Glowit provides smart and sustainable designs combined with aesthetics and innovation. Our products are manufactured using the most advanced technology and processes to stand the tests of time.

VISION

To exceed our customers' expectations in designs, quality, logistics, pre & after sales service and cost through R&D and continuous improvement and customer interaction.

MISSION

We are setting a goal to meet our vision of being the most recognized brand in bathroom solution providing international quality products at affordable prices across the globe to make homes better and lives happier.

PRODUCTION UNIT

The Craft MEETS QUALITY

To adorn lives with classy comfort

WALL HUNG BASIN

As per shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

COUNTER WASHBASIN

At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective cation until you are ready for installation.
5. Please follow all local building and plumbing codes.

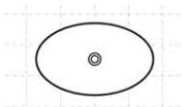

MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rage or Paper toweling, Drill (1/2 dia, drill bit or larger), pencil, sealant, sharp knife or scissors.

INSTALLTION OF LAVATORY

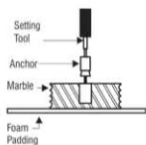

Please Note : Please install it In a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucel, Fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top directed.
4. Please mark the faucet hole canterline on the counter top.
5. Please drill a 1/2'' pilot on the inside of the cut line.

For Wood Counter tops:

1. Mark and per-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

For Marble Counter tops:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/6''holes 5/8'' deep at the locations shown on the template.
2. Use a setting tool and hammer to secure the anchors.

For All installations:

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacture's instructions.
4. Install the drain to the lavatory according to the manufacture's instructions.

PERTICULARS	I.S.I REQUIREMENT	OUR VALUE
WATER ABSORPTION	0.50%	<0.20%

DISCOLOURATION	NONE ON THE VISIBLE SURFACE	NONE ON THE VISIBLE SURFACE
RESISTANCE TO CHEMICALS	SHOULD BE RESISTANT TO ALL HOUSE HOLD CHEMICALS	PASSES
RESISTANCE TO STAINS AND BURNS.	NO STAIN SHOULD REMAIN ON TESTING	PASSES

TIPS & CARE V

Glowit's cleaning and Maintenance Tips - to keep cle an your bathroom might seem like a mean task, but if done regularly it will keep the bathroom not only clean but also germ free.

GENERAL MAINTENANCE TIPS

- The bathroom should be cleaned once a week and even more frequently if you are a large family.
- Make it a firm rule in your home to rinse out the tub or shower stall immediately after you use it.
- To discourage mildew growth in the bathroom, increase air circulation and light to decrease moisture.
- Always start cleaning the bathroom from the top and work your way to the floor.
- Install and properly maintain de humidifiers, vents and exhaust fans
- After handling soapy cleansers and cleaning solutions please make sure you wash your hands clean and wipe them dry.
- Ensure you wipe the bathroom floor dry with the help of a wiper every time after a bath, to prevent slipping and falling.
- Ensure that all electrical appliances in the bathroom, are installed away from direct sources of water

WASH BASIN

The wash basin is the most frequently used sanitary ware in the bathroom. It is important that it is kept clean at all times to insure it is bacteria free. It is advisable to gently scrub it clean after every use, or at least once a day. Readily available cleansers can be used. Even soap solution works well, but would require some scrubbing. Using an anti -septic solution is a good ide

TAPS & FIXTURES

- Avoid using strong cleaning agents to clean taps and other metal fixtures like shower units and knob, these may damage not only the surface coating & affect thw working of the product.
- Use mild cleaning to clean taps and other fixtures. Instead spray cleaner and rinse thoroughly with water
- Avoid using acids and bleaches of any kind as these can lead to significant damage
- A simple eco-friendly cleaner can be used safely for cleaning metal fixtures. Spray & let it remain on the faucet for 5 minutes and then wipe clean with a damp cloth.
- Inspect the taps for remaining stains, scum or grime. If more cleaning is needed, fill a plastic bowl with 1/2 cup of baking soda and 1/4 cup of white Vinegar. Scrub the tap with a nylon scrub to loosen dirt particles and wipe with a soft damp cotton cloth. Finally, wipe the taps dry for a sparkling finish.
- It is also essential to keep the drainage pipes clean to prevent clogging. At least once a month clean up the drains to keep them free of grease, dirt, and hair. The mixture will foam up. Let stand for a few minutea then pour boiling water down the drain to wash down any clogging.
- To clean clogged showerheads, fill a plastic bag with undiluted white vinegar & submerge the showerhead in it. Secure the bag with a rubber band and leave it ro soak overnight.The next day, scrub the shower with a toothbrush and wash it clean.
