

GLOWIT®
PREMIUM BATHWARE

2026 - 01
NEW COLLECTION

ABOUT US

Established in 2020, Glowit Sanitaryware has swiftly risen as a prominent name among India's leading manufacturers of ceramic sanitaryware solutions. With an extensive and diverse product portfolio, Glowit caters to modern bathroom needs with precision and style. Driven by a team of seasoned experts, the company leverages exceptional expertise to deliver world-class sanitaryware products.

QUALITY

At Glowit, products are meticulously produced in our cutting-edge manufacturing facility, ensuring uncompromising quality control throughout the manufacturing process. We combine smart, sustainable designs with sophisticated aesthetics and inventive solutions. Backed by leading-edge technology and precision engineering, our products are designed to endure and excel over time.

VISION

We aim to elevate customer satisfaction by excelling in product design, quality standards, logistics management, and reliable pre- and post-sales support. Driven by research, continuous refinement, and strong customer connections, we strive to create unmatched value and trust.

MISSION

We are driven by a mission to become a globally recognized name in bathroom solutions, offering premium-quality products at accessible prices. Our goal is to enrich homes and bring joy to every life we touch.

VALUES

Our journey is anchored in integrity and care, values that define our commitment to excellence and accountability. Through leading by example, we encourage an atmosphere of progress, learning, and creative innovation. These guiding principles ensure collective growth and meaningful success.

Discolouration	None on the visible surface	None On The Visible Surface
Resistance To Chemicals	Should be resistant to all House hold chemicals	Passes
Resistance To Stains And Burns.	No stain should remain On testing	Passes

TIPS & CARE

Glowit's cleaning and Maintenance Tips to keep clean your bathroom might seem like a mean task, but if done regularly it will keep the bathroom not only clean but also germ free.

GENERAL MAINTENANCE TIPS

- The bathroom should be cleaned once a week and even more frequently if you are a large family.
- Make it a firm rule in your home to rinse out the tub or shower stall immediately after you use it.
- To discourage mildew growth in the bathroom, increase air circulation and light to decrease moisture.
- Always start cleaning the bathroom from the top and work your way to the floor.
- Install and properly maintain dehumidifiers, vents and exhaust fans
- After handling soapy cleansers and cleaning solutions please make sure you wash your hands clean and wipe them dry.
- Ensure you wipe the bathroom floor dry with the help of a wiper every time after a bath, to prevent slipping and falling.
- Ensure that all electrical appliances in the bathroom, are installed away from direct sources of water

WASH BASIN

The wash basin is the most frequently used sanitary ware in the bathroom. It is important that it is kept clean at all times to insure it is bacteria free. It is advisable to gently scrub it clean after every use, or at least once a day. Readily available cleansers can be used. Even soap solution works well, but would require some scrubbing. Using an antiseptic solution is a good idea
